

8th Triennial Conference 2011 15-17 May 2011

The MSTS cordially invites you to attend Australia's leading conference on coal mine subsidence to be held in the Hunter Valley.

Papers cover key areas such as;

- Stability of man-made structures in a dynamic environment
- Managing subsidence impacts on surface infrastructure
- Current research and development, including recent case studies
- Mine Subsidence mitigation and remedial measures
- Community and stakeholder consultation processes

The Sebel Kirkton Park Hunter Valley
336 Oakey Creek Road
POKOLBIN NSW 2320
